COMMUNITIES
Where *everyone* belongs!

Mid Coast Communities

People we work with thrive
and our local communities are
places where everyone belongs

Mid Coast Communities is a not for profit community organisation. We have been based on the Mid North Coast of New South Wales for over 40 years- we know and are part of our local communities.

Our vision is that people we work with thrive and our local communities are places where everyone belongs. To achieve our vision, we create opportunities for people to connect with each other, with family and friends and to community life.

We deliver a range of programs, community events and conferences that support and strengthen communities. We create spaces and communities where people belong and can thrive, and where diversity is celebrated.

We support people to reach their dreams and goals. We strengthen ability, inclusion and connection for people with disability. We address youth homelessness and build the skills and capacities of young people. We support families to build positive and safe relationships.

We are professional, friendly and helpful.

We value connection and kindness.

We inspire and influence positive social change.

We connect people to information and resources.

We look forward to hearing from you.
